

Stonlux floors are ideal for areas requiring a smooth, seamless, attractive floor that resists chemical attack and is easy to maintain. And for environments that demand static protection there is Stonlux ESD, a conducting system designed to meet international standards for static control.

Stonlux® SL

Smooth, seamless, general purpose epoxy system. Available in 2 or 3mm thicknesses.

Stonlux® ESD

Smooth, seamless, conducting epoxy system for static sensitive environments. Available in 2 or 3mm thicknesses.

Color matching available with additional lead time, minimum order requirements and a slight premium.

Color reproductions are as accurate as modern photography and quality printing methods can produce. For actual color please request a sample, www.stonhard.com
